Abstract of JP2002126535

PROBLEM TO BE SOLVED: To produce a carbon monoxide selective oxidation catalyst capable of selectively oxidizing CO in a CO-containing gas mixture and excellent in selective oxidation and provide a production method of the oxidation catalyst. **SOLUTION:** The method for producing a carbon monoxide selective oxidation catalyst for selectively oxidizing CO in a CO-containing gas mixture comprises a step of adding a catalyst carrier in a solvent and further adding a catalytic active species to the solvent to produce a carbon monoxide selective oxidation catalyst.
